LOOTING A LIBRARY.

Amid the orgy of looting in which European powers have indulged in Caina, one of the most noteworthy, yet least noticed, incidents was the Russian seiz ire of the great Moukden library. This was or is not a great library in bulk or numbers, for it was all conveyed to St. Petersburg in two or three railroad cars. But even one carload of books and manuscripts may be exceedingly valuable, especially if, as in this case, the library was founded cen urles ago and was cherished by the Imperial Clan as the repository of the richest library treasures of the empire, including the whole elaborate manuscrip history of the empire itself.

The plea under which the Russian Government looted this Moukden library was simple, but scarcely convincing. When the Boxers burned the Russian Legation building at Peking the library contained therein was destroyed, where fire the seizure of this BUFFALO LITHIA WATER, library is cothing but an act of reprisal.

litrary is nothing but an act of reprisal. The fallacy in such an argument lies in the assumption that the two libraries were of equal or nearly equal value. As a matter of fact, the Russian library is said to have consisted almost exclusively of modern works, published in Russia, every one of which can be duplicated for a small price. There was not one real "library treasure" in it. In such view of the case, taking the Moukdes library as a quid pro quo the Moukden library as a quid pro quo was much like taking one of Raphael's Madonnes to compensation for a circus poster. - LY. N Tribune.

TRIED TO THROW CORPSE FROM WINDOW.-E nile Schunck, a young man, of Baltimore, Md., is under arrest for savagely attacking the corpse of his father and causing a disturbance in house of mourning. His father died Saturday. What trouble, if any, had existed between them before the father's death is 10 known. Saturday night when young Schunck returned and found his father dead he began to quarrel with other members of the family. The body of the father was laid out in the parlor. The son in his rage picked up the corpse and tried to throw it out of the window, after venting his anger upon the body of his dead parent. Several members of the family tried to house. Schunck was sent to jail.

THE REVOLT IN MACEDONIA .- The unrest in Macedonia against Turkish rule continues. In a conflict between Turkish troops and Macedoniars at Zelini, three Macedonians were killed before the uprising was suppressed. Iwo Bulgarian teachers, suspected of inci ing revolution were arrested a Chaupista by Turkish gendarmes. They were cruelly tortured in an endeavor to extort confessions from them. One died as a result of the cruelties imposed and the other committed suicide to escape further torture. Four hundred Bulgarians were arrested at Monastor for alleged connection with the revo-lutionary plot. A crowd of them made a break to escape when an opportunity presented itself. The Turks fired on the fleeing Bulgarians wounding forty of them. Six have died of their wounds.

A Very Remarkable Remedy. "It is with a good deal of plessure and satisfaction that I recommend Chamberlain's Colic, Cholera and Distribute and Easterland, "says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes the left my store smilingly in minutes he left my store smilingly in-forming me that he felt as well as ever." Sold by Riebard Gibson, druggist.

To accommodate those who are partial to the use of atom zers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm Price, including the appraise to the solid preparation. Cream Falm is quickly absorbed by the membrane and does not dry up the secretions, but changes them to a natural and healthy character. Ely Brethers, 56 Warren street, New York.

is Primarily and Mainly Exerted upon Uric Acid and the Urates. It Disintegrates and Eliminates Calculus of

the Kidney or Bladder, Uric Acid, Phosphatic and Oxalic. Its Modus Operandi in Such Cases, and Special Value in All Uric Acid Poisoning.

Dr. J. W. Mallet, Professor of Chemistry, University of Virginia, extract from report of analysis of Cal-cull discharged by patients under the action

of BUFFALO LITHIA WATER

Spring No. 2:

"It seems on the whole probable that the action of the water is PRIMARILY and MAINLY EXERTED upon URIC ACID and the URATES, but when these constituents occur along with and as cementing matter to Phosphatic or Oxalic Calculus materials the latter may be so detached and broken down as to disintegrate the Calculus as a whole in these cases, also thus admitting of Urethral discharge."

Dr. C. H. Davis, of Meriden, Conn.,

Dr. C. H. Davis, of Meriden, Conn., reports in New England Medical Monthly:
"Mr. R. L. Roys, of this city, consulted me about two years ago for Stone in the Bladder, from which he had been suffering for years. On my suggestion, he commute use of

as be was very much opposed to operative interference. After using the Water a short time, disintegration to a certain extent took place and large quantities of stone were passed. For several days in succession he passed as much as a teaspoonful of the debris, and at intervals for a considerable period he passed large quantities, and under the continued use of the Water there was a constant passage of Calculi until he was entirely relieved."

The photograph herewith is a correct representation and exact aire of some of the largest sentation and exact aire of some of the largest action and exact aire of some of the largest Achemical and microscopical analysis showed to succession he passed as much as a teaspoonful of the debris, and at intervals for a considerable period he passed large quantities, and under the continued use of the Water there was a constant passage of Calculi until he was entirely relieved."
